

HELD

UNDER BAIL TO APPEAR AS A WITNESS

INDICATING THAT JACKSON AND DISS DE BAR WOMAN

WILL BE HELD FOR A TRIAL

Sensational Trial of Theodore and Laura Jackson Resumed in London This Morning—One Defendant in an American—Defendants Clash in Arguments to Court.

London, Oct. 12.—The sensational trial of Theodore and Laura Jackson, alias Horos (the latter better known as Ann Odella DissDeBar) was resumed this morning. The couple are charged with conspiracy to defraud women of money and jewels by a method of fortune telling and also of procuring young girls for criminal purposes. Jackson is further charged with criminal assault.

Miss Croisdale, who testified at yesterday's session, making some remarkable admissions, was again called to the stand today. She reaffirmed the evidence advanced yesterday regarding the actions of Theodore. Jackson himself cross-examined the young woman regarding his part of the case while the DissDeBar woman conducted a cross-examination in a similar manner regarding her part. The two questioners frequently clashed on their arguments but the DissDeBar woman, possessing ample vocal qualities, drowned out her co-defendant. The loudness of the woman's voice at last disturbed the judge, who summarily called the couple to order.

At the conclusion of her testimony Miss Croisdale was held under \$40 bail to appear as a witness in the criminal court. This indicated clearly that Jackson and Madame DissDeBar will be held for trial. A servant named Brown was also examined today but this testimony was not materially important.

KITCHENER'S SEVERITY.

London, Oct. 12.—General Kitchener has begun his policy of severity in Cape Town. Not only has he shot Commandant Lotter, but he has also hanged two farmers at Vryheid for twice joining the Boers. Many other rebels are being sent to penitentiaries or severely flogged.

SERVANT GIRLS

Of Chicago Announce the Object of the Union Which Has Been Formed--Dead Line on Further Encroachments--Those Who May Join Union.

Chicago, Oct. 12.—Servant girls of Chicago have drawn a dead line "on further encroachments" and announced the beginning of a campaign to "reduce and limit the hours of labor," in the constitution and by-laws just prepared by their new union. It is also provided in this new constitution that it shall be the duty of each local union to take up the scale of wages for discussion at least once a year. After a preamble setting forth the needs of organization for emancipation of the servant girls the objects of the union are given as follows:

To raise and uphold our trade to a good social and economic condition and by mutual effort to place ourselves on a foundation sufficiently strong to prevent further encroachments. To perfect a strong sisterhood and cultivate feelings of friendship between the members. To elevate the standard of skill in our trade. To reduce and limit the hours of labor. To do all in our power to elevate the moral intellectual social and economic conditions of the members of the organization. To cooperate in founding a home where unemployed members can rest.

Housemaids, cooks, laundresses and all other workers engaged in the household trades are eligible to membership in the working woman's association of America, as the union is named. Separate unions are to be formed of women engaged in hotels and restaurants, in kitchens, waiting rooms, dining rooms and other work.

SHAME

Kept Levia From Writing to His Wife For a Quarter of a Century. Supposed to be Dead.

Boston, Mass., Oct. 12.—"The dead has returned, and in the flesh," Postmaster Gilman muttered to his assistant. "There walks Julian Levia, of Ashtabula, Ohio, who has been buried these twenty years or more, and of whom no living man in these parts has heard for a quarter of a century."

Twenty-five years ago Julian Levia disappeared. He left a wife and two children and no word. Financial troubles had been a source of great annoyance to him, and it was finally decided that he had taken his own life. His wife went into mourning, and the children spoke of their father as being dead.

Julian Levia said that when he left Georgetown, he worked his way to Pennsylvania and after a lapse of years drifted to Ashtabula, Ohio. There he saved money and went into the shoe business. Shame kept him from writing to his wife and children.

"EASY"

Was Rev. D. J. K. Maddox, He Says, For Alleged Hypnotic Fraud Of His Wife.

Owensboro, Ky., Oct. 12.—Rev. D. J. K. Maddox, the well known Baptist minister, who has filed suit for divorce, makes the allegation that his wife hypnotized him; that he was only a "country minister," and that he was therefore an easy victim of her alleged fraud.

Mrs. Maddox has answered and denies her husband's charges, and says that she had been a widow 21 years and that she was induced by Mr. Maddox to marry him within a short time after the death of his former wife.

She is 56 years of age and he is some years older. He is not only a well known preacher, but has considerable property, and their divorce suit will be hotly contested on the ground of the wife's claim for maintenance and alimony.

NO ACTUAL NEWS

FROM MISS STONE.

Constantinople, Oct. 12.—Notwithstanding the encouraging news sent to the American missionary the friends of Miss Stone are still without actual news of her safety. Every effort is being made to find and rescue her.

WILD

Utterances of the Mayor of a French Town Causes Government to Take Vigorous Action.

Burgos, France, Oct. 12.—The mayor of this place, M. Vailland, has published an appeal to the anarchists which is sensational in the extreme. It reads: "The dagger in Carnot's entrails has not delivered us. Bracci's knife caused a new king. The ball which struck McKinley will not prevent another presidential canker from devouring American resources. Who will exterminate the evils of mankind, with an avenging and liberating arm? The government intends to prosecute the mayor for his wild utterances."

SCHOOLBOYS SUSPENDED.

Findlay, O., Oct. 12.—Thirty-four members of the junior class of the high school refused to attend school Friday afternoon and marched from the building in a body because the colors of the senior class had been placed above the entrance, and they would be forced to walk beneath them. As a result of their action the boys will be suspended indefinitely and the ring leaders expelled.

POWDER AND A PICK.

FOUR MEN KILLED.

Juneau, Alaska, Oct. 12.—A party of five miners attempted yesterday to open a box of powder with a pick. The powder exploded killing four of the men and seriously wounding the fifth.

ANOTHER GUSHER.

Hartford City, Ind., Oct. 12.—Another oil gusher was drilled in this field Friday afternoon. When the well came a oil flowed over the top of the derrick, and inundated the surrounding territory. The well is located on the W. Peterson farm in Licking township and is good for at least 500 barrels a day when it settles down. It is the property of the American Window Glass company.

REGARDING MISS STONE.

Washington, Oct. 12.—The state department remains non-committal as to the case of Miss Stone, who is now in the hands of brigands. It has offered to advise as to whether an effort to raise the ransom shall be continued and declines to affirm or deny any published rumors regarding the matter.

MAY REWARD MCLAUREN.

Washington, Oct. 12.—It is now stated that in case a cabinet position becomes vacant the great services of Senator McLauren, of South Carolina, to the McKinley administration, will be recognized by a cabinet position.

CIRCUIT JUDGE

Defied by His Lawyer Son Who Threatened Proceedings in Impeachment.

Huntington, Ind., Oct. 12.—The violent controversy which occurred in the Circuit Court yesterday between father and son, may result in sensational legal proceedings. The parties to the disagreement were Judge J. C. Brannan and his son, John S. Brannan, prosecuting attorney. The latter appeared in defense of a client asking a change of Judge.

The Judge denied the request, accusing the young attorney of bulldozing tactics, advising clients to perjure themselves and conduct unbecoming a member of the bar.

A grand jury was threatened and the client was fined \$25 for refusing, under the advice of his attorney, to answer the Court's questions on the affidavit for a change of Judge.

Angered by this, young Brannan denied the Court's accusations and asked for a bill of exceptions. He refused to sit down. The Sheriff was called. In a rage Brannan left the room, saying as he went:

"You can bulldoze your wife and family but, thank God, you can't bulldoze me as a member of this bar. I'll have impeachment proceedings against you before the sun goes down."

Members of the bar are greatly wrought up over the case. At 4 o'clock the attorney was recalled. After some discussion the change of Judge was granted.

SCHLEY

COURT SPENT MORNING IN INTERROGATING

WITNESSES AS TO TIME SCHLEY WAS NOTIFIED

OF SPANISH FLEET'S PRESENCE.

Commander of the Admiral's Flag Ship Tells Why the Commodore Failed to Receive the Code—Other Witnesses Examined Before the Naval Court of Inquiry.

Washington, Oct. 12.—The cross examination of Captain F. E. Chadwick was looked forward to as the star event in the Schley investigation today. He was on the stand at the time of adjournment yesterday afternoon, and Mr. Rayner said at that time he desired to look up some records before he continued the examination.

At the opening of the session Lieutenant Althouse, Dewey, Marsh and Boughter took the stand to correct the printed report of their testimony.

Captain Chadwick was then put on the stand to continue his testimony of yesterday. Rayner read the latter part of yesterday's testimony and said he desired to put two questions which he would submit to the court. He said that Chadwick's statement that he protested against Sampson's congratulatory message to Schley of May 23, was certainly gratuitous and it left the record in bad shape. He wished therefore to ask these two questions:

"When did you find out that Schley was operating under dispatch No. 8?" This is the despatch ordering Schley from Cienfuegos to Santiago and to blockade the latter port.

"Did you in such protest refer to the blockade of Cienfuegos?" "The court has no objection to those questions," said Dewey.

"Will you permit us to confer?" asked Lemley.

In a few minutes Lemley said: "We shall not object to those questions for we shall soon clear up whether Schley was or was not acting under dispatches No. 8."

Rayner then changed the first question to read: "When did you first learn the existence of dispatch No. 8?" "I wish to say just one word about this," said Hanna. "We cannot permit counsel to ask questions and be shut out from reply."

Witness then answered: "I first saw this dispatch when it was sent to the Marblehead to be taken to Commodore Schley at Cienfuegos. I did not read it, until it was replied to by Schley. That was May 26."

"Did you have the blockade of Cienfuegos in mind when you protested against the sending of a congratulatory message?" asked Rayner.

"I had in mind," said the witness. "I object if the witness is reading from a written answer," interrupted Rayner. "I must see it before reading. The witness can answer yes or no and then make his explanation."

Chadwick then gave as his answer to the question: "I can say that I had it partially in mind."

"That is satisfactory," said Rayner. The counsel in the Schley case spent almost the entire morning interrogating witnesses as to the precise time Schley was notified of the presence of the Spanish fleet in Santiago harbor.

Lieutenant Staunton said today that although news that Cervera was at Santiago was confirmed May 20, a day elapsed before a dispatch on the subject was sent by Sampson to Schley. Then said Hanna, assistant to Lemley: "I would like to know how Schley can be bound by a dispatch he never received." Rayner then stated that the first positive order to Schley to go to Santiago was received May 27, too late for Schley, who had already arrived at Santiago, May 26.

The Schley court adjourned at noon today. Lemley charged Rayner with being inaccurate in his statements. While Rayner said to Dewey that Lemley's conduct was highly improper, Lemley admitted his remarks were made in the heat of debate and Rayner was satisfied.

Loveland, Ohio, Oct. 12.—This morning a passenger train going east on the B. & O. in charge of Conductor Rial Graham ran through an open switch about two miles east of here. The engine was turned over, seriously injuring Engineer Lisle of Cincinnati and slightly bruising W. Disharoon, a passenger of Philadelphia, Pa. The rest of the passengers and postal clerks received a bad shake-up. The switch was left open by the section men. Trains were delayed two hours.

Washington, Oct. 12.—United States delegates to the Pan American conference in the City of Mexico, started for Mexico at 3:30 this afternoon, stopping on the way over Sunday at St. Louis. The object of the conference is to promote a better feeling among all American nations. Great effort will be made to promote international commerce and to allay suspicion of the Latin American countries that the United States has taken up the game of grab since acquiring our new island possessions. The delegates of the United States are: Ex-Senator Davis, of West Virginia; W. I. Buchanan of Iowa; W. V. Foster, of Illinois; Charles M. Pepper, District of Columbia, and John Barrett of Oregon, with John C. Williams of New York as Secretary. On the same train will go representatives of the Argentine Republic, Brazil, Chili, Colombia, Costa Rica, Guatemala, Haiti, Nicaragua, Peru, and Venezuela.

CAPTURED AT LAST.

London, Oct. 12.—Lord Kitchener reports that Commandant Schoop's force which for the past six months has eluded all efforts of the British to corner it has been captured by French columns.

MORMON CONVERT.

Akron, Ohio, Oct. 12.—Emil Gemmetter, a prominent citizen and "pillar" of Trinity Lutheran church, has renounced the church and says after a thorough study of Mormonism himself and wife are convinced that the Church of Latter Day Saints contains the gospel in its fullness. He does not state whether he will join the Mormon colony.

MOURNED

For the Death of Young Man Who Was Positively Identified But a Mistake Was Made.

Greenville, Pa., Oct. 12.—William M. Fletcher, of this place, received a telegram from Cleveland, Ohio, September 2, announcing the death of his son Oran M. Fletcher, the previous day. He went to that city on the first train, and at a coroner's inquest the supposed dead man's wife positively identified the remains as those of her husband. The father, too, while skeptical at first, admitted it must be his son.

The death occurred in a saloon where the man had called for a glass of beer and a sandwich. The bartender testified he knew the man to be Oran M. Fletcher. The body was brought here for burial and many friends viewed it and mourned the death of one they had known from boyhood. The widow and three children came to live with the father who is a prosperous farmer.

Yesterday the parents and children were both astonished and rejoiced by the appearance at the home of the reason who claimed he knew nothing of the report of his death until last Sunday. He does not give any reason why he did not make some effort to see his family as he was not many miles away from Cleveland. Who the man is who bore such a remarkable likeness to Oran Fletcher has not been learned but he received a decent burial at the hands of strangers.

Byron spent the leisure hours of nearly four years in the preparation of the first two cantos of "Child Harold."

PROTEST

Raised by Announcement That Judge Day Would Stump Caused a Change of Program.

Columbus, O., Oct. 12.—The announcement made at Republican state headquarters that the United States Judge William R. Day, would take part in the Ohio campaign on the stump, caused such a storm of protest to be raised around the ears of the Republican committee that details of it have been considered necessary during the past few days. The committee has found a convenient way out of the difficulty by declaring that Judge Day's son, not the judge himself, was meant. Nevertheless it is a fact that when this announcement was first made the propriety of Judge Day's taking part in the campaign was immediately called to the attention of one of the highest officials at Republican headquarters, who declared that he saw no propriety in the scheme and warmly defended it. Not until protest began to come in from Republicans as well as Democrats did the Republican committee substitute Judge Day's son for his father.

Judge Day has said that he was not invited to participate in the campaign, but the official statement given out at headquarters did not represent him as having been invited, but merely said that he would be and that his services on the stump would be active. This announcement was given to the local Republican organ and printed in its columns. It was also given to the Advocate correspondent, who at the time suggested that it might not be favorably received, in view of Judge Day's official position, but those making the announcement then and there refused to regard it in that light. The committee cannot deny that it had planned to pull Judge Day into the campaign and was only deterred from doing so by the indignation which its announced intention created.

JURY

For Second Trial of Powers—Prosecution Used But Two of Five Challenges Allowed.

Georgetown, Ky., Oct. 12.—One hundred men from Bourbon county arrived this morning to be examined for jury duty in the trial of Caleb Powers for complicity in the "Gobel murder." Before they were examined the jury box was filled by the addition of Gano Shropshire of Georgetown, a farmer. After a conference, the commonwealth accepted the jury as it stands, and the defense retired to decide on challenges, of which it is entitled to fifteen. The prosecution is entitled to only two. Only two of them.

At the close of the fiscal year 1900 there were 76,688 postoffices in the United States, or one to every one hundred inhabitants.

COLONEL KILBOURNE'S ELECTION PREDICTED

Republican State Committee Alarmed Over the Outlook--Franklin County Will Make a Revolution--Change of Republican Tactics Found Necessary--Col. Kilbourne's Popularity Manifested Everywhere.

Columbus, O., Oct. 12.—If the political situation in other counties in the state that were carried by McKinley is approximately what it is in Columbus and Franklin county, James Kilbourne will be elected governor by a plurality not far from 80,000. This may be rather a sweeping statement, but it is based on a purely local standpoint, but it is undoubtedly justified by present indications.

Colonel Kilbourne will overturn the McKinley pluralities in Franklin county. He will in all probability carry Columbus and Governor Nash's own ward—a thing without precedent in recent years. The Republican state committee during the past ten days has become seriously alarmed over the condition of affairs in Franklin county, and the evidences of the alarm are not difficult to find, since they appear on the surface of events. Indeed, they are so patent that they cannot be concealed. During this brief time the state committee has concluded that it must come to the rescue of the Republican county committee with liberal draughts upon the punchbowl of the Hanna barrel. The money was needed in other sections of the state badly enough, but affairs here were so critical as to demand instant attention. Accordingly a sub-headquarters of the Hanna machine has been opened in the Deshler block at the corner of High and Broad streets. Here fifty-two young women and a staff of male superintendents are now constantly at work, devoting themselves to "saving" the Republican city of Columbus and the county of Franklin, the safety of which during the past five years has not before

ROBBERS

AT WORK IN VARIOUS PARTS OF COUNTRY.

VILLAGERS ATTACK BURGLARS AT CURTICE, O.

AND DRIVE THEM OUT OF TOWN

Postoffice at Harrodsburg, Ky., Visited and Shots Exchanged—Bloodhounds Are on Trail of Men—Raid on Stores at Madison, Ohio, but Light Haul Was Made.

Harrodsburg, Ky., Oct. 12.—A daring attempt to rob the Mercer National bank early this morning was only frustrated after the exchange of fifty shots by two policemen and the would-be robbers. Policeman Brown was stopped in front of the bank by two robbers, who were hiding behind a pillar of the bank and a nearby tree. Brown was told to throw up his hands, but instead began firing. He was joined by Policeman Britton and a negro hostler named Merton who took part in the fight. The marauders emptied their pistols and escaped behind the bank in the darkness, leaving a trail of blood. It is known that four of the gang were trying to effect an entrance in the rear of the bank while the other two acted as sentries. It was found that the post office had been entered and robbed of \$50 in stamps and an attempt made to blow open the safe. Burglars' tools were left in the post office. Bloodhounds are being used today.

Fremont, O., Oct. 12.—At Curtice, near here, a gang of robbers blew the safe in Ingram & Co.'s general store last night. The noise awoke the townspeople and a vigorous attack was made on the robbers, many shots being exchanged. They got no booty but escaped. This is the seventh time burglars have attacked Ingram's store.

Painesville, O., Oct. 12.—Seven burglars broke into North Madison stores early this morning, but got no loot. Posses chased them into a freight train. The burglars pulled revolvers on the posse and held them at bay until the train pulled out, on which they escaped.

A New Departure.

A New, Effectual and Convenient Cure
For Catarrh.

Of catarrh remedies there is no end, but of catarrh cures, there has always been a great scarcity. There are many remedies to relieve, but very few that really cure.

The old practice of snuffing salt water through the nose would often re-

lieve and the washes, douches, powders and inhalers in common use are very little, if any, better than the old fashioned salt water douche.

The use of inhalers and the application of salves, washes and powders to the nose and throat to cure catarrh is no more reasonable than to rub the back to cure kidney disease. Catarrh is just as much a blood disease as kidney trouble or rheumatism and it cannot be cured by local treatment any more than they can be.

To cure catarrh, whether in the head, throat or stomach, an internal antiseptic treatment is necessary to drive the catarrhal poison out of the blood and system, and the new catarrh cure is designed on this plan and the remarkable success of Stuart's Catarrh Tablets is because being used internally, it drives out catarrhal infections through action upon the stomach, liver and bowels.

Wm. Zimmerman of St. Joseph, relates an experience with catarrh which is of value to millions of catarrh sufferers everywhere. He says: "I neglected a slight nasal catarrh until it gradually extended to my throat and bronchial tubes and finally even my stomach and liver became affected, but as I was able to keep up and do a day's work I let it run along until my hearing began to fail me and then I realized that I must get rid of catarrh or lose my position as I was a clerk and my hearing was absolutely necessary."

"Some of my friends recommended an inhaler, another a catarrh salve but they were no good in my case, nor was anything else until I heard of Stuart's Catarrh Tablets and bought a package at my drug store. They benefited me from the start and in less than four months I was completely cured of catarrh although I had suffered nearly all my life from it."

They are pleasant to take and so much more convenient to use than other catarrh remedies that I feel I cannot say enough in favor of Stuart's Catarrh Tablets."

A little book on cause and cure of catarrh will be mailed free by addressing F. A. Stuart Co., Marshall, Mich., and the tablets are sold by all druggists in the United States and Canada.

He has hundreds of friends in Newark who extend their congratulations to him on receiving this important appointment.

SCHLEY COURT.

(Continued from Page 1.)

Washington, Oct. 12.—In the Schley court of inquiry, Captain F. E. Chadwick was called to the stand. During the war he was in command of Admiral Sampson's flagship, the New York, and also was chief of the admiral's staff.

Five other witnesses were heard during the day, two of them being officers of the New York. One of these was Lieutenant C. C. Marsh, the flag secretary of Admiral Sampson, who testified concerning dispatches to Commodore Schley, and the other was the ship's flag lieutenant, Lieutenant E. L. Bennett. Lieutenant Theodore G. Dewey, a nephew of Admiral Dewey, who served on the Massachusetts; Lieutenant Adelbert Althouse, also of the Massachusetts, and Lieutenant Francis Boughter, who served on the Marblehead, were the other new witnesses.

Lieutenant Dewey was a watch and division officer on the Massachusetts in the war. In reply to the judge advocate Lieutenant Dewey described the Santiago blockade in pretty much the same terms as others have done. When he was asked if he knew of any orders regarding what should be done if the Spanish ships came out at night, he replied: "No, I don't think we could have seen them if they had come out."

Several witnesses described the bombardment of the Colon in Santiago harbor. They intimated the attempt was a fiasco. In reply to questions by the judge advocate, the witnesses testified further that they had no information that the Spanish fleet would make a sortie from Santiago bay on July 3, 1898. They did not receive intelligence about smoke arising from the harbor. This questioning had reference to the theory of the Schley counsel that Admiral Sampson had reason to believe that the Spaniards were coming out, with the further inference, of course, that knowing that they were coming out he took the New York away to Siboney that morning.

Captain Chadwick's testimony related very largely to dispatches by Admiral Sampson to Commodore Schley, while the latter lay off Cienfuegos in May, 1898, and to the code of signals agreed upon between Captain McCalla of the Marblehead and the Cuban forces operating near Cienfuegos. He said this code had not been sent to Commodore Schley by dispatch because Captain McCalla had expected to join the commodore immediately and communicate the code to him. He also told of being present at an interview between Admiral Sampson and Commodore Schley, in which the latter had expressed his intention to be loyal to the commander-in-chief. He related in detail the change of opinion concerning the whereabouts of Cervera's fleet by Admiral Sampson on May 21, between the sending of the two dispatches of that date by Admiral Sampson to Commodore Schley, one of which was dated at Key West and the other at Havana. Captain Chadwick said he had not approved of Admiral Sampson's dispatch on May 28, congratulating Commodore Schley on his accomplishments to that date. He said Admiral Sampson remarked that the message was intended merely to encourage Schley.

Admiral Sampson Recovering.
Washington, Oct. 12.—Medical reports indicate that Admiral Sampson is recovering from the fatigues of his journey south. The intense headaches from which he suffers recur less frequently. The principal obstacle in the treatment of his case, however, is said to be a great constitutional weakness. Recurring periods of absolute forgetfulness also have a depressing effect.

On Saturday, October 5, about sixty-five friends and neighbors of Mr. and Mrs. P. McKinney made them the victims of a surprise party. Mr. and Mrs. McKinney had been invited to take supper with their son, Mr. A. McKinney, who resides one mile west of Newark, and who was in the secret. The party was a farewell to Mr. and Mrs. McKinney, who moved on the following Monday to their home, four miles north of Granville, on Blanchard street. Mr. and Mrs. McKinney were each presented with a handsome rocking chair and smaller gifts. The guests came with well filled baskets and the result was an elegant supper.

THEY FEAR A SNARE.

Difficult to Negotiate With the Bold Brigands.

ATTEMPTS AT CAPTURE A MISTAKE.

Portion of the Ransom Soon to Be Turned Over to the Outlaws—Search by Troops Abandoned—Uncle Sam's Policy—Another Urgent Appeal For Funds.

Constantinople, Oct. 12.—The United States legation here has received information, which is withheld, of some expected important developments in the Stone abduction affair. On Tuesday it was supposed an attempt would be made to capture the band, but nothing has been heard since Monday, when Mr. Haskell reached Samakoff. He is not provided with funds but has been empowered to arrange the lowest terms. The attempts to capture the band have made the brigands shy of future traps, thus rendering negotiations difficult. Such tactics are severely criticized here. The brigands may, in revenge, kill their captives. Moreover, the fact that no money was produced on the first demand may cause the brigands to mutilate Miss Stone as a warning.

In compliance with an urgent request from the American government, the search by Ottoman troops for the abductors of Miss Stone, the American missionary, has been abandoned, it being feared that the brigands would kill her should they be closely pressed. Arrangements are now being made to pay the ransom demanded.

Roosevelt's Probable Policy.
London, Oct. 12.—After detailing the history of the abduction of Miss Stone, The Spectator remarks: "President Roosevelt and the Washington cabinet maintain justly that the sultan is responsible, as it is his misgovernment which provokes and protects brigandage, and they intend to demand reparation from the Porte. It will not be limited, we imagine, to £25,000. The Porte will be required to punish the authors of the outrage, and as Turkey is sure to shuffle and America is tired of being played with, a naval demonstration is quite on the cards."

Another Appeal For Funds.
Boston, Oct. 12.—The misunderstanding existing in various parts of the country, indicated especially in private advices received here as to progress of the fund to ransom Miss Stone, the missionary, is considered to be of sufficient reason for the issuance of another appeal for funds by the clergymen who signed the first one. The idea is to impress upon the people of America the danger which still threatens Miss Stone.

Wool Conditions.
Boston, Oct. 12.—The increased shipments do not represent a more active wool market. Beyond one or two large sales the market is decidedly quiet, though dealers are sold so far ahead that quotations are particularly strong. Nearly 1,000,000 pounds of new Montana, mostly staple fine medium, at 18 cents, has been moved this week, and 300 bales of South American quarter-blood cross breeds were sold at 24 cents, the highest price paid this year. The new wool season has opened in Australia, with sales at Adelaide 15 to 20 per cent higher than last year's opening. The use of wool in the United States is markedly increasing. The reaction from fleece-lined cotton underwear to merino and all-wool garments is worthy of notice. Knitting mills that have not been in the wool market for two years have been buying scoured wools this week.

Reception to the Duke.
Toronto, Oct. 12.—Thousands of loyal Canadians joined in the reception given to the Duke of Cornwall and York. The events of the day began with a grand review of 10,000 troops and a march past which was highly commended by English army experts present. The day cleared during the militia evolutions, and before the great crowd of many thousand spectators had left the grounds the weather was all that could be desired. Both infantry and cavalry evolutions proved features with the spectators and critics, and the duke seemed highly pleased with the work of the colonial troops.

Result of a Quarrel.
Madison, Fla., Oct. 12.—John J. Pert, a prominent and wealthy citizen of this county, and a Confederate veteran, was shot and instantly killed in his home near here by his nephew, Munro Williams. The two men were talking when their interview led to a misunderstanding. Williams immediately shot his uncle, the bullet breaking Pert's neck. He expired in a few seconds. Williams is 25 years old. He is in jail. Pert was 50 years old.

Open to Settlement.
Helena, Mont., Oct. 12.—The great canal system in district No. 4, which comprises 33,000 acres of splendid land in the Dearborn valley, Lewis and Clark counties, has been opened to settlement. The state purposes to sell this land in tracts of 160 acres to actual settlers at only the cost of placing the water upon the land, giving 10 years for payment, at 6 per cent interest. Eleven thousand acres are now ready for settlement.

Received by the Sultan.
Constantinople, Oct. 12.—The sultan received in private audience General Horace Porter, United States ambassador to France, and Mrs. Porter. To the former he presented a valuable souvenir, and upon the latter he conferred the grand cordon of chevakat. Later in the day General and Mrs. Porter took tea in the Yildiz park.

AMUSEMENTS.

"An interesting play," New York papers so describe "Cashel Byron, Gentleman." The New York Herald of December 28th last has the following to say of the above play: "An adaptation of G. Bernard Shaw's story, 'Cashel Byron's Profession,' was given a special performance yesterday afternoon at the Herald Square Theatre. The play is in four acts and is the work of Harrison J. Wolfe who played the title role of the gentleman. The play is original and most interesting. What recommends it above all else, it is out of the ordinary, as was this author's work in Arms and the Man, and The Devil's Disciple, presented by Mansfield. It will be seen here at the Auditorium Tuesday, October 15.

The extremely clever farce "Are You a Man?" adapted from the German of Laufs & Kutz, will be presented at the Auditorium October 19. To those who admire a original, snappy farce, the coming of "Are You a Man?" will be hailed with pleasure. Of all the Rich & Harris farces, it is undoubtedly the best. The advance sales indicate a large attendance, and

PROMPT MEASURES

Taken by Local Authorities to Prevent Epidemic—Patients to be Removed North of City.

Dr. J. H. Moninger, expert from the State Board of Health, visited Newark Friday night at the request of the local Board of Health and examined the several cases of alleged smallpox which were mentioned in Friday evening's papers. The doctor pronounced the cases small pox and advised that the authorities arrange to take the patients to a secluded place. He hesitatingly said that if prompt measures are taken no fear need be entertained.

The Board of Health arranged to get possession of the Jones house near Horn's hill, north of Newark and the patients will be taken there Sunday. Dr. D. E. Stephan was engaged to care for the patients and the Board also arranged for the patients and have arranged to have necessary vaccination done.

Dr. Moninger pronounced the case at Norman and several cases at Clay Lick as smallpox but in the diagnosis of the Clay Lick cases a reputable physician of Newark disagrees. The latter says it is not small pox but German measles, which is contagious but not a serious disease.

The prompt measures taken by the Board will undoubtedly prevent a spread of the disease and in the opinion of those who are in possession of all the facts there is no cause for alarm.

However to be on the safe side it is suggested that all who have not been vaccinated should be vaccinated at once.

As a precautionary measure the Fifth street school and the North Fourth street school house have been ordered closed for two weeks, but in all probability it will be for a shorter period.

MISS GOLDMAN

High Priestess of Anarchy Is in Cleveland But She Will Not be Allowed to Lecture.

Cleveland, O., Oct. 12.—While Leon F. Czolgosz in the dungeon at Auburn prison still waits to pay the penalty for the assassination of the President, Emma Goldman the woman who is credited with having inspired that awful deed, has come back to Cleveland. She has come back to publicly repeat her lecture that Czolgosz the murderer, declares taught him to point his weapon in the Temple of Music at Buffalo. Miss Goldman, "The High Priestess of Anarchy," as she is proud to be called, reached Cleveland yesterday and at once was spirited into necessary retirement by her friends.

Miss Goldman was shrewd enough to arrive in Cleveland unannounced. The plan seems to have been to keep her presence in this city a secret until she was ready to spring her lecture on a startled public. As a matter of fact she will have no opportunity to spring her lecture on anyone. If the police can locate her she will enjoy the hospitality of the city behind iron bars.

These flags will be stuck in the ground around the tomb of Jefferson. The formal ceremonies will take place today, the morning and afternoon at Monticello and the evening at the University of Virginia.

FOUND DEAD

Was Peter Conroy, Prominent Insurance Agent—Due to Excitement of Last Night.

Elmira, N. Y., Oct. 12.—Peter P. Conroy a well known insurance agent, representing several companies in this city was called to the Second National bank last night to explain a suspicious looking draft transaction. This morning he was found dead at his home. Last spring the Maple avenue club house a well known rendezvous was burned. Conroy held the insurance which was adjusted at \$1,600. This was payable to Mrs. Robert Stephens. The company recently paid the amount of the insurance as adjusted and the draft for \$1,600, the amount of the award, was sent to this city. When it turned up at the bank for payment it is said to have been indorsed with Mrs. Stephens' name and the amount was paid by the paying teller. It later developed that here was a question as to the regularity of the affair and last night Mr. Conroy was called to the bank to see if he could throw any light on the very peculiar case.

Conroy told the bank officials he could satisfy them that his actions had been straight, if he could go out and get his bank book. A bank employee started to follow him, but lost track.

The police were called on for assistance but going to Conroy's house they found he was not there. What he did during the evening is unknown.

Doctors this morning pronounced death the result of heart trouble aggravated by the exciting incidents of last night.

Conroy was postmaster at Watkins during the Harrison administration.

STRENUOUS LIFE SO OFTEN KILLS.

THOUSANDS WORN AND SICK IN BODY AND MIND.

NEW STRENGTH AND LIFE IN ONE REAL REMEDY.

ABLEST OF ALL PHYSICIANS FREELY GIVE ADVICE.

It is truer today than ever before that one man is no better than another unless he does more than another.

When, recently, in the most learned medical review in London, the organ of the great English college of physicians and surgeons, it was proved by exhaustive statistics that, despite the strain upon nerves and blood incident to the modern, strenuous life—despite the fact that diseases of the nervous system appear earlier and oftener

MR. F. G. CROWELL.

among working people than formerly, nevertheless, within the past five or six years the average life of Americans was materially longer than it was a decade ago—the editors of the review pronounced it as their firm opinion that this undoubtedly resulted in no small degree from the discovery a few years ago by an eminent American physician of a positive cure for diseases of the nervous system, which had promptly been put within the reach of the public in that country, and was being used more and more generally as a family remedy.

One of the physicians, a member then and now of the royal staff, in forwarding a copy of the article to the proprietors of Paine's celery compound, enclosed a long and somewhat technical letter, in which he said:

"We are thoroughly convinced that no remedy yet known affords so certain relief from that class of disorders which modern conditions of working and living now breed, as your Paine's celery compound."

Certainly one remedy is no better than another unless it accomplishes more than another.

And Paine's celery compound is pre-eminently the best remedy known to medicine for the cure of ailments that result from impaired nerves and consequent impure blood. The rheumatism, neuralgia, sleeplessness, indigestion, lack of strength that a bottle of Paine's celery compound so rapidly dispels are but temporary conditions if the relief that this remedy affords is properly given.

Mr. F. G. Crowell, a regent of the State University of Kansas, a typical example of the strenuous life of today, a college graduate with a later master's degree from Columbia, who resigned from the prosecuting attorneyship of Atchison county after four years to engage in the grain business with the famous Greenleaf-Baker Grain Company, is one of the thousands of such young men who owe a debt of gratitude to Paine's celery compound, and to use his own direct words, "found it all that it is represented to be."

When everything else has failed, Paine's celery compound makes the sick well. It needs but a single trial to convince!

MISSIONARY BISHOPS

To Be Elected by the Episcopal House of Deputies.

FIVE NOMINATIONS ARE DULY MADE.

Both Branches of the Conference Are Wrestling With the Question of Marriage and Divorce, the Bishops Adopting a Substitute For a Proposed Canon—Other Proceedings.

San Francisco, Oct. 12.—The house of bishops of the triennial convention of the Episcopal church of America nominated the following missionary bishops, to be elected by the house of deputies: For the district of Han Kow, Rev. James Addison Ingles, now of Han Kow, District of the Philippines, Rev. Charles H. Brunt, now of St. Stephen's, Boston. District of Olympia, Rev. Fred William Kaetor, now of Dubuque, Ia. District of Porto Rico and adjacent islands, Rev. William Cabell Brown, now connected with the mission of Brazil. District of North Dakota, Rev. Charles Campbell Pierce, U. S. A. The house of bishops adopted the eleventh and last amendment to the constitution.

The question of marriage and divorce was before both houses. The bishops, after debate, adopted a substitute for the proposed canon 37, providing for the discipline of persons marrying again after being divorced. The principal change made by the substitute is the provision that such person may receive the sacrament on the written consent of a bishop. The house of deputies began the eagerly awaited debate on section 4 of the proposed canon 36, which virtually prohibits the remarriage in the church of divorced persons. The discussion will be continued on Monday. The only vote reached during the day was on a proposed modification of Dr. Huntington's amendment providing for the determining the cause of divorce in the case of a divorced person applying to be married. This was defeated.

Canteen Again.
Pittsburg, Oct. 12.—The members of the permanent committee on temperance of the Presbyterian general assembly do not take kindly to the annual report of Surgeon General Sternberg. In it he declares: "Military officers may be said to be unanimous in their opinion that the steady decrease of late years of alcoholism in the regular army is mainly the result of the establishment of the post exchange or canteen at military posts." "I do not believe it," said William C. Lilley, treasurer of the committee. "The facts and figures and testimony in our possession as a committee refute the statement, and Mr. Sternberg or any other army officer can not substantiate his statement." One year ago the committee was very active in presenting petitions to congress against the canteen. Now it is preparing to wage a still more effective warfare against the repeal of the present canteen law.

Ugly Charge.
Rochester, Minn., Oct. 12.—The grand jury of Dodge county has indicted Charles C. Hartley of Dodge Center for murder in the first degree. Hartley has been proprietor of the Dodge Center transfer house, which was destroyed by fire one night last June. On that night he met at the station and escorted to his hotel Miss Bertha Pelton, a schoolteacher of Kenyon, who was on her way to her home in Wisconsin. It is the theory of the state that Hartley killed the girl and then set fire to the hotel. Robbery is alleged to have been the motive.

Germany Moves.
Berlin, Oct. 12.—According to a special dispatch from Kiel, preparations on the German cruiser Falke are being hurried so that she may leave for South American waters next Tuesday. The Kiel correspondent of the Berliner Tageblatt says: "The gunboat Panther, which is nearing completion in the imperial yards at Danzig, is destined for use on the Amazon, the Orinoco and the Plate for the protection of German interests. She is of the improved Itis type, with stronger artillery, and is capable of 13 knots."

Widow Held.
Denver, Oct. 12.—Mrs. E. Vallie, widow of Uphide Vallie, station agent of the Colorado and Southern railway at Jefferson, Colo., whose dead body was found near his home last Wednesday, his head having been beaten to a pulp, was arrested here upon the request of the Park county authorities. The coroner's jury fixed the murder of Vallie on Charles Baker, who formerly worked for Vallie on a ranch. Charges were made that Baker's motive was love for Mrs. Vallie, who was much younger than her husband.

Dying Man's Confession.
South Bend, Ind., Oct. 12.—James Braddie, in a letter written Sept. 23 at Buffalo, N. Y., to Governor Durbin of Indiana, claims that Louis Jaguth, who is serving term of life imprisonment at Michigan City, Ind., for killing Policeman Samuel Cooper of South Bend, Ind., is not guilty. He further claims that he (Braddie) fired the fatal shots, and that he now makes confession because he is seriously ill. He has not, however, given himself up to the authorities, and states that it is not his intention to do so.

MUSTANG HUNT

In Utah Is On and Will Continue for Several Days—Determined to Work Their Destruction.

Kanab, Utah, Oct. 12.—Hundreds of wild horses stampeded in terror over hill and plain yesterday, pursued by a band of mounted ranchmen, urging their mounts to the utmost, and now and then taking a shot at one of the fleeing animals. The mustang hunt was on. Two score men, mounted on the best animals at their command and supplied with relays to enable them to keep up the pursuit, started. It was estimated that 100 mustangs had been disposed of in one way or another. The hunt will be in progress several days.

The only hunt of the kind on record in this locality was two years ago. Then 300 mustangs were shot and 1,500 captured, and indications are that this record will be surpassed. The animals are believed to have sprung from the horses owned by the victims of the Mountain Meadow massacre in 1857. When the party was attacked a large number of the horses escaped. For nearly half a century they have been breeding on the ranges in this region, mingling with the stray Indian ponies and escaped horses formerly belonging to cowmen, and multiplying at a prodigious rate. So numerous have they become that they have been eating up the none too rich ranges of this section. Hence the determination to work their destruction.

Miners Escaped.
Fairmount, W. Va., Oct. 12.—There was an explosion of gas in the Fairmount Coal company's New England mines near here. The gas ignited from a shot fired by one of the miners, and the loose coal at once taking fire, a big blaze resulted which filled the mine with smoke at a point where it prevented the exit of the miners for four hours. The flames were finally shut off by the putting up of brattices, and the men all came out unhurt. A mule was killed and a horse crippled, but no further damage was done. The fire is still raging in the mine, but it is believed will be under control in a short time.

Small Riot.
New York, Oct. 12.—A number of women and girls employed by the Cooper Wrapper company, Brooklyn, where a strike was in progress, were attacked on their way to work and many of them were badly hurt. Rosie Solomon, said to be the leader of the attacking party, was arrested.

The Pittsburg and Western is now a Baltimore and Ohio property, having been purchased Wednesday at the foreclosure sale at Pittsburg.

The Pittsburg and Western comprises several roads, merged at different times. The Pittsburg, Newcastle and Erie, which was the name of the first portion of the Pittsburg and Western, and extended from Allegheny to Clarion, was built in 1877.

In 1887 the Pittsburg and Western was sold under foreclosure. In 1891 the B. & O. purchased the controlling interest in the property.

In 1935 the road was placed in the hands of Thomas M. King as receiver for the Court. He resigned last fall, and was succeeded by John K. Cowen who was President of the B. & O.

When L. F. Loree succeeded Mr. Cowen as President of the B. & O. he also succeeded him as receiver of the Pittsburg and Western.

AS TO CLOTHING.

HERE is an epitaph in a Vermont churchyard: "I expected this but not so soon."

Such is the epitaph on clothing worn out in the wash-tub. Underclothing may be fragile, yet it ought not to wear out in ten weeks. But this isn't wear; it is decay. You buy 5 cents worth of cheap soap and you lose the equivalent of 50 cents in the wash-tub. Ivory Soap will not harm the most delicate fabric. Is it wise not to use it?

EXECUTORS

Of the Mast Will Raise a Point Regarding Ohio Wesleyan University Bequest—Ohio Notes.

Springfield, O., Oct. 12.—In a suit by the executors of the will of the late P. P. Mast they request the court to decide if the Ohio Wesleyan university has forfeited the right to a bequest of \$100,000 for a library because it already has a library and can not use this money. The executors also question the right of the university to the use of the Mast homestead, worth \$100,000, because it is not used for university purposes, as the will specified.

Burglars Wreck a Building.
Wooster, O., Oct. 12.—At Shreve, a small town in this county, the entire north end and roof of the 2-story building used by Craig & Company, grain buyers, were blown down by burglars. So much dynamite was used that the heavy doors on the large safe were thrown clear across the street. The burglars did not get into the strong box, which held several hundred dollars. The doors to the village bank were also pried open. Here the cracksmen found \$1.00 in change. They escaped.

Now in Jail.
Springfield, O., Oct. 12.—George W. Thatcher, who is under indictment for the alleged forgery of \$296,000 on P. P. Mast, was surrendered to sheriff by his bondsman, L. F. Young, and is now in jail with small probability of another bondsman being found. The Mercer heirs refused to stand by Thatcher, and Young declined to stand the responsibility alone.

Probable Fatal Fall.
Niles, O., Oct. 12.—Abraham Cline, a wealthy farmer living near this city, fell from an apple tree. He alighted upon his back across a pile of rails, breaking three ribs and receiving internal injuries. The victim is over 70 years old and his injuries will likely prove fatal.

MISTREATED.
Neuralgia is a Very Much Mistreated Complaint—It's an All Nerve Trouble Curable by the Great Nerve Medicine Dr. A. W. Chase's Nerve Pills—It's Newark Evidence That Proves.

The remarkable number of neuralgia cures in Newark by Dr. A. W. Chase's Nerve Pills has removed all question of doubt as to the efficacy of this medicine in curing neuralgia. Trend of the testimony is to effectual cure, that is the difference from other preparations that only render temporary relief.

Mrs. E. D. Everts of No. 51 West Harrison street, Newark, Ohio, says: "Dr. A. W. Chase's Nerve Pills acted wonderfully well with me. Owing to neuralgia I was all broken down, very nervous and having had attacks of nervous sick headaches, and excitement bringing them on. It was suggested I get the Nerve Pills at Brickner's City Drug Store and try them. I am more than glad I did so as I feel strong again, nerves steady and plenty of energy. Those sickening, prostrating headaches are a thing of the past and I am necessarily very much pleased with the Nerve Pills and their work."

Dr. A. W. Chase's Nerve Pills are sold at 50c. a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

HEISEY'S

PLENTY OF COAL IF THE GAS SUPPLY FAILS.

New Addition Built to the Mold Shop. Newcomers at the Factory.—Union Elects Officers.

The correspondent of the Pittsburgh Commoner and Glassworker writing from Heisey's glass factory in this city says:

We are working full time here, and as cool weather has set in we changed this week from turn work to day and night work. We don't have to fear this winter of our gas playing out on us, for if it does Mr. Heisey has an ample supply of coal here now. He has already about seventy-five car loads piled up in one great heap and there is more coming every day.

A new addition has been built onto the mold shop. As Heisey's mold makers and the Holophone Shade Co. mold makers were all in one shop it was getting too small, and the new addition was built for the Holophone Shade Co. It is rapidly nearing completion and will add greatly to this factory. Mr. Heisey has one of the best equipped factories in the country and is improving every day. He is also erecting a plant mixer, and when completed and is in working order it will no doubt add greatly to uniformity of the glass.

A little accident happened here last Saturday, but it did not turn out to be very serious. Mr. Lee Hughes went to pass under the elevator in the packing room at the same time as the elevator was coming down, and he not hearing it, stepped in under it. The elevator struck him on the head, causing him to fall, but in some way he managed to pull himself out from under it before the elevator reached the bottom. When he was found he was unconscious, with a cut in head about two inches long. Mr. Hughes is a packer and well liked here.

Among the newcomers here are Bros. Ed Monday, William Headington, A. Harris and Thomas Murray. Bros. M. Metzger and R. Keenan have resigned their positions here to take new ones at Marietta, and Bros. John Young and Thompson at Byessville. We wish the brothers good luck and hope to see them back in Newark again at some time.

Local union No. 38 elected officers at their last regular meeting in September. The following are their names: William S. Coen, president; Orlis Powell, vice president; Gottlieb Zimm, recording secretary; Robert Oldfield, financial secretary; Fred Gebhart, outside guard; Benjamin Brown, treasurer; James Coen, inspector; Gaffney, Haas and Hunker, trustees.—East.

PAPER CANE

MADE BY NEWARK BOY IN PRISON OUT WEST.

Trying to Secure Funds for His Release—Marshal Griffith Tells of Young McCormick.

A Newark man has just received by express from Canon City, Colo., a finely made cane manufactured from Newspapers. The manufacturer is R. McCormick, a Newark young man who is a convict in the penitentiary there. McCormick writes that he is endeavoring to secure his release from prison and is trying to get funds. He says that the cane was made from Advocates. The paper was cut into small pieces which were perforated in the center and placed upon a steel rod, great pressure being used to make them retain their position. Such ingenuity was used in the manufacture of the cane.

Former City Marshal Joseph Griffith was seen this afternoon and was asked if he knew McCormick. Mr. Griffith hesitated a moment and after asking a question or two replied:

"Yes, I know the young man very well, and I now recall a little experience I had with him a few years ago." Marshal Griffith then went on to say that when he was in the police service here the store of D. M. Black was burglarized, a large quantity of cutlery being stolen. While he was at work on the case a young man called at the city prison one afternoon and brought a long sock containing much of the goods stolen at Black's store. The bag had been found near the B. & O. station hidden not far from the old gas well. The young man was paid to take the sack back to the hiding place and was cautioned to place it just where he had found it.

Marshal Griffith then stationed a man to watch the spot and at night he put three men on guard nearby. Late that night they were rewarded by the appearance of a quartette, one of whom, the marshal says, was young McCormick, then a lad probably 16 years of age. A struggle followed in which the officers landed three of the boys, but McCormick got away.

A long time after that Mr. Griffith says that he received a letter from McCormick dated at some town in one of the Dakotas notifying him that he was there. The marshal replied that he was obliged for the information, but that it was too far for him to go. That was the last heard of McCormick until the latter's letter was shown to him today.

Mr. Griffith says that McCormick who is a young man not more than 23 years old, came from a good family, living on North Fourth street, not far from the Fourth street Church of Christ. His father was a B. & O. engineer who died from injuries sustained in a fall on the ice some years ago.

GOLD

Picked Up On a Farm Near Springfield Ohio, by an Old Miner—Some Excitement.

Springfield, O., Oct. 12.—Great excitement exists in the vicinity of Enon seven miles east of here over the reported discovery of gold on the David Wilkerson farm, which is located in Clark and Green counties. It is known as the Johnson place, and the find was made by Sam Jones, a pioneer gold miner.

For days he has been gathering up rocks entirely different from those found on adjoining farms, and one of these Jeweler Syman assayed and found it contained \$14.75 in gold. It is yet to be proved that the gold can be found in large quantities.

A ton of it would be worth \$35,000, which is richer than the ore of the famous Cripple Creek, Colo., district. In speaking of the matter Mr. Syman said: "The rock was dark looking, and when I asked the owner if he had taken it out of the river he only smiled."

AT BUFFALO

AN IMPORTANT MEETING OF THE VINOL CLUB

Attended by Frank D. Hall Who Indorses Action Taken—Hall's Drug Store News.

One of the most enthusiastic club meetings held at Buffalo the past year was that of the Vinol Club, which convened at the hotels Buckingham and Marlborough, on October 1st and 2nd.

Over two hundred members from all parts of the United States were present. Immense sales were reported from all quarters and the success of the various agents seemed almost incredible, but is accounted for by the great merits of the remedy Vinol.

It was my privilege to be present at this meeting and endorse the action of the Vinol Club, and do here state that I have no hesitation in recommending a remedy so universally approved as Vinol. FRANK D. HALL.
